Forward Looking Statements

This filing contains statements which, to the extent they are not recitations of historical fact, constitute "forward looking statements" under federal

securities laws. All such statements are intended to be subject to the safe harbor protection provided by applicable securities laws. For discussions identifying some important factors that could cause actual VSE Corporation ("VSE" or the "Company") results to differ materially from those anticipated in the forward looking statements contained in this filing, see VSE's discussions captioned "Business," "Risk Factors," "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Notes to Consolidated Financial Statements" contained in VSE's Annual Report on Form 10-K for the fiscal year ended December 31, 2005 filed with the Securities and Exchange Commission (the "SEC"), together with the Annual Report on Form 10-K/A filed with the SEC on March 31, 2006 (collectively, "Form 10-K").

Readers are cautioned not to place undue reliance on these forward looking statements, which reflect management's analysis only as of the date hereof. The Company undertakes no obligation to publicly revise these forward looking statements to reflect events or circumstances that arise after the date hereof. Readers should carefully review the risk factors described in other documents the Company files from time to time with the SEC, including this and other Quarterly Reports on Form 10-Q to be filed by the Company subsequent to its Annual Report on Form 10-K and any Current Reports on Form 8-K filed by the Company.

VSE CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six months ended June 30, 2006 are not necessarily indicative of the results that may be expected for the year ending December 31, 2006. For further information refer to the consolidated financial statements and footnotes thereto included in the VSE Corporation Annual Report on Form 10-K for the year ended December 31, 2005. The Company operates within one reportable segment.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates affecting the financial statements include the allowance for doubtful accounts, accruals for loss contracts, contract disallowance reserves, self insured health claims and estimated cost to complete on firm fixed-price contracts.

Contract Inventories

The components of contract inventories as of June 30, 2006 and December 31, 2005 were as follows (in thousands):

	2006	2005
Work in process	\$ 8,652	\$ 9,965
Less: Progress payments and customer advances received	-	(5,692)
Total contract inventories	\$ 8,652	\$ 4,273

Contract inventories consist of materials purchased, advances to suppliers, and other expenditures for use in a contract to modify and apply a protective system, the Tanker Ballistic Protection System ("TBPS") to military vehicles for the U.S. Army.

Although these costs are classified as inventories for accounting purposes, they are similar in nature to materials and direct supplies purchased for use in performance on the Company's other contracts in that they are solely and directly attributable to the contract and will be billed to the customer within a relatively short time. These materials and direct supplies will not be restocked to maintain any permanent inventory levels. Contract inventories are

relieved when units are delivered and revenue is recognized.

-7-

VSE CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Work in process inventories consist of amounts for materials, supplies and other expenditures for which work has been performed but for which the end unit has not yet been completed and accepted. Work in process inventories at June 30, 2006 and December 31, 2005 included applicable indirect cost burdens, including general and administrative costs totaling approximately \$1.2 million and \$1.3 million, respectively. Indirect cost burdens, including general and administrative costs charged to cost of sales from inventories for the periods ended June 30, 2006 and December 31, 2005 totaled \$1.9 million and \$3.4 million, respectively.

Debt

VSE has a loan agreement with a bank under which credit is made available to the Company in the form of revolving loan amounts or letters of credit. The amount of credit available to the Company is \$15 million, subject to certain conditions, including a borrowing formula based on billed receivables. The expiration date of the loan agreement is May 31, 2008.

The loan agreement contains terms whereby the Company may borrow against the revolving loan and at any time and from time to time can prepay such borrowings in whole or in part without premium or penalty. There are collateral requirements by which Company assets secure amounts outstanding, restrictive covenants that include minimum tangible net worth and profitability requirements, a limit on annual dividends, and other affirmative and negative covenants. As of June 30, 2006 the Company has not been notified by the bank, nor is the Company aware of any default under the loan agreement.

The Company pays a fixed annual commitment fee of \$20 thousand, interest on any revolving loan borrowings at a prime-based rate or an optional LIBOR-based rate, and fees on any letters of credit that are issued. As of June 30, 2006 and December 31, 2005, there were no revolving loan amounts outstanding. There was one letter of credit for approximately \$192 thousand in effect as of December 31, 2005 that expired in May 2006. There were no letters of credit in effect as of June 30, 2006. Interest expense incurred on the loan for the six months ended June 30, 2006 and 2005 was approximately \$0 and \$2 thousand, respectively.

Stock-based Compensation

2006 Restricted Stock Plan

On May 2, 2006, the Company's stockholders approved the VSE Corporation 2006 Restricted Stock Plan (the "2006 Plan"). Under the 2006 Plan, not more than a total of 125,000 shares of VSE common stock ("VSE Stock") may be issued. The shares issued under the 2006 Plan may, at the Company's option, be either shares held in treasury or shares originally issued. On June 27, 2006, the Company granted 1,800 shares of restricted VSE Stock under the 2006 Plan. The fair market value on the grant date was \$31.50 per share. The shares issued vested immediately and cannot be sold, transferred, pledged or assigned before the second anniversary of the grant date.

Stock Option Plans

On December 30, 2005, the board of directors of VSE Corporation (the "Board") discontinued, until and unless the Board determined otherwise, awarding options, both discretionary and nondiscretionary, to purchase VSE Stock under

-8-

(Unaudited)

VSE's 2004 Stock Option Plan (the "2004 Plan"). The options outstanding under the 2004 Plan, as of December 30, 2005, were not affected by this Board action. In addition, the options to purchase VSE Stock under VSE's 1998 Stock Option Plan (the "1998 Plan") were not affected by this Board action.

The primary reason for the Board's suspension of option awards under the 2004 Plan was the potential impact on VSE's results of operations from the application of SFAS 123(R) to share-based payments to employees, including stock option awards.

2004 Stock Option Plan

As of June 30, 2006 options issued under the 2004 Plan for 66,750 shares of VSE Stock remain outstanding. Each option granted under the 2004 Plan was issued at the fair market value of VSE Stock on the date of grant. Each option vests 25% on date of award and 25% on each anniversary date thereafter, becoming 100% vested as of the third anniversary date of award. The 2004 Plan will terminate on the earliest of May 1, 2014, or the date on which all options issued under the 2004 Plan have been exercised, expire, or have been terminated.

1998 Stock Option Plan

As of June 30, 2006, options issued under the 1998 Plan for 121,125 shares of VSE Stock remain outstanding. The 1998 Plan will terminate on the earliest of May 6, 2008, or the date on which all options issued under the 1998 Plan have been exercised, expire, or have been terminated.

Accounting for Stock-based Compensation

Prior to January 1, 2006, the Company had followed the provisions of SFAS 123, "Accounting for Stock-Based Compensation," as amended by SFAS 148, "Accounting for Stock-Based Compensation-Transition and Disclosure." Accordingly, the Company accounted for stock-based compensation under Accounting Principles Board (APB) Opinion No. 25, "Accounting for Stock Issued to Employees," and related interpretations, using the intrinsic value method. Effective January 1, 2006, the Company adopted the fair value recognition provisions of FASB Statement No. 123(R), "Share-Based Payment", using the modified-prospective-transition method. Under that transition method, compensation cost recognized as of June 30, 2006 includes compensation cost for all share-based payments granted prior to, but not yet vested as of January 1, 2006, based on the grant date fair value estimated in accordance with the original provisions of Statement 123. Results for prior periods have not been restated.

As a result of adopting SFAS 123(R) on January 1, 2006, the Company's net income for the period ended June 30, 2006, was approximately \$78 thousand lower or approximately \$.03 per share basic and diluted than if it had continued to account for share-based compensation under Opinion 25. The total compensation cost not yet recognized in the Company's income before income taxes as of June 30, 2006 is approximately \$307 thousand, to be recognized over approximately 1.50 years.

Prior to the adoption of SFAS 123(R), the Company presented all tax benefits of deductions resulting from the exercise of stock options as operating cash flows in the Statement of Cash Flows. SFAS 123(R) requires the cash flows resulting from the tax benefits resulting from tax deductions in excess of the compensation cost recognized for those options (excess tax benefits) to be classified as financing cash flows. Approximately \$92 thousand in excess tax benefits classified as cash provided by financing activities for the six

-9-

VSE CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

months ended June 30, 2006 would have been classified as cash provided by operating activities if the company had not adopted SFAS 123(R).

The following table illustrates the effect on net income and earnings per share

if the Company had applied the fair value recognition provisions of SFAS 123(R) to options granted under the Company's stock option plans for the periods ending June 30, 2005. For purposes of this pro forma disclosure, the value of the options is estimated using a Black-Scholes-Merton option-pricing formula and amortized to expense over the options' vesting periods.

	Three Months Ended June 30, 2005	Six Months Ended June 30, 2005
Net income, as reported	\$1,765	\$3,069
Add: Total stock-based employee compensation expense as reported under intrinsic value method (APB No. 25) for all awards, net of related tax effects	-	-
Deduct: Total stock-based compensation expense determined under fair value based method (SFAS No. 123) for all awards, net of related tax effects	(50)	(112)
Pro forma net income	<u>\$1,715</u>	<u>\$2,957</u>
Earnings per share:		
Basic - as reported	\$ 0.76	\$ 1.34
Diluted - as reported	\$ 0.74	\$ 1.30
Basic - pro forma	\$ 0.74	\$ 1.29
Diluted - pro forma	\$ 0.72	\$ 1.25

The fair value of the options was estimated on the date of grant using the Black-Scholes option pricing model. The following assumptions were used in the pricing calculations for 2005. In 2006, no such assumptions were made as no options were granted:

	2005
Risk free interest rate	3.28%
Dividend yield	0.79%
Expected life	3 years
Expected volatility	60.50%

-10-

VSE CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Set forth below is a summary of the Company's stock option activity for the six months ended June 30, 2006 and 2005:

	Weighted Average Exercise 2006		Weighted Average Exercise 2005	
	Price	Price	Price	Price
Number of shares under stock options:				
Outstanding at beginning of period	197,563	\$15.83	211,625	\$ 9.51

	=====	=====	=====	=====

-11-

VSE CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Earnings Per Share

Basic earnings per share have been computed by dividing net income by the weighted average number of shares of common stock outstanding during each period. Shares issued during the period and shares reacquired during the period are weighted for the portion of the period that they were outstanding. Diluted earnings per share have been computed in a manner consistent with that of basic earnings per share while giving effect to all potentially dilutive common shares that were outstanding during each period. Potentially dilutive common shares include incremental common shares issuable upon exercise of stock options.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	2005	2006	2005
	----	----	----	----
Basic weighted average common shares outstanding	2,366,712	2,310,864	2,364,001	2,295,182
Diluted effect of options	53,512	66,390	62,733	70,486
	-----	-----	-----	-----
Diluted weighted average common shares outstanding	2,420,224	2,377,254	2,426,734	2,365,668
	=====	=====	=====	=====

Litigation

The Company is a party to or has property subject to litigation during the normal course of business. In the opinion of management, the resolution of any such litigation will not have a material adverse effect on the Company's results of operations or financial position. However, the results of any legal proceedings cannot be predicted with certainty.

-12-

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Executive Overview

VSE Organization

VSE's business operations consist primarily of services performed by the Company's unincorporated divisions and wholly owned subsidiary. The Company uses multiple operating entities to bid on and perform contract work. The term "VSE" or "Company" refers to VSE and its divisions and subsidiaries unless the context indicates operations of the parent company only.

Unincorporated divisions include BAV Division ("BAV"), Communications and Engineering Division ("CED"), Coast Guard Division ("VCG"), Fleet Maintenance Division ("FMD"), Management Sciences Division ("MSD"), Systems Engineering Division ("SED"), and Engineering and Logistics Division ("ELD") beginning in 2006. Energetics Incorporated ("Energetics") is currently VSE's only active subsidiary.

VSE Customers and Services

The Company is engaged principally in providing engineering, design, logistics, management and technical services to the U.S. Government (the "government"), other government prime contractors, and commercial entities. The largest customer for the Company's services is the U.S. Department of Defense ("Defense"), including agencies of the U.S. Navy, Army, and Air Force.

Navy - The majority of VSE's work is performed for the U.S. Navy. BAV is a major provider of logistics, training, and technical assistance in support of the Navy's Foreign Military Sales ("FMS") ship transfer program. FMD supports the Navy by providing a variety of services, including ship systems installation efforts, combat systems inspections, ship repair and overhaul availability planning, weapons management, ordnance alterations, and air combat logistics.

Army/Army Reserve - VSE also performs a significant amount of its work for the U.S. Army and U.S. Army Reserve. VSE, through SED and ELD, provides these customers equipment refurbishment services, military vehicle protection systems, engineering and technical support for ground weapons, logistics and training services, material procurement support, and prototype development support for combat vehicles. MSD provides the Army, as well as other government agencies and commercial organizations, with training services in quality systems and product, process, and management optimization. CED provides management oversight and coordinates support efforts for a variety of government work orders on a large Army contract.

Other - Energetics provides the Department of Energy and other government and industry customers with expert consulting services that typically include program planning and analysis, R&D management services, technology assessment and performance metrics, communications and outreach, and conference planning. VCG provides services to the U.S. Coast Guard that are similar to the work performed by BAV for the U.S. Navy and its FMS customers. The Company provides support and other services to the U.S. Air Force, U.S. Postal Service and U.S. Department of Treasury.

BAV Ship Transfer Program

VSE's BAV Division provides the U.S. Navy with program management, engineering, technical and logistical support services associated with the sale, lease, and transfer of Navy ships to foreign governments. This program has been the Company's single largest revenue producer. Revenues generated by this program have typically accounted for a significant percentage of VSE's consolidated revenues. Revenues from this program accounted for approximately 37% and 43% of consolidated revenues during the six month periods ended June 30, 2006 and 2005, respectively. The level of revenues and associated profits

-13-

resulting from fee income generated by this program varies depending on a number of factors, including the timing of ship transfers and associated support services ordered by foreign governments and economic conditions of potential customers worldwide. The Company has experienced significant quarterly and annual revenue fluctuations and anticipates that future quarterly and annual revenues will be subject to variation due to changes in the level of activity associated with the Navy's ship transfer program. The transfer of four U.S. Navy ships to Taiwan under this program has been a major contributor to the Company's revenues in 2005 and 2004, and has continued contributing to the Company's revenues in 2006.

The original contract associated with this program was a ten-year cost-plus award fee contract awarded in 1995 with a total ceiling value of more than \$1 billion. BAV was awarded a second contract in April 2005 to continue work on this program. The new contract is a five-year cost-plus award fee contract with a total ceiling value of approximately \$544 million. The Navy began issuing orders on the new contract in the second quarter of 2005 and ceased issuing orders for new work on the original contract at that time. BAV will continue work associated with the transfer of four ships to Taiwan under delivery orders previously issued on the original contract until the work is completed and all four ships are delivered to Taiwan.

Contract terms under both the original and new contracts specify base fee payments and award fee payments to BAV. Base fee payments are determined by level of contract activity and base fee income is recognized each month. Award fee payments are determined by performance and level of contract activity. A contract modification authorizing the award fee payment is issued subsequent to the period in which the work is performed. The Company does not recognize award fee income until the fees are fixed and determinable, generally upon contract notification confirming the award fee. Award fees are made three times during the year. Accordingly, the Company typically has three quarterly reporting periods per year that include the recognition of BAV award fee income and one quarterly reporting period that does not include BAV award fee income. Due to such timing, and to fluctuations in the level of revenues, profits as a percentage of revenues will fluctuate from period to period. The Company recognized BAV award fee income in the three month periods ended June 30 and March 31, 2006. In 2005, the Company recognized BAV award fee income in each of the three month periods ended March 31, June 30, and December 31 and did not recognize any BAV award fee income in the three month period ended September 30.

TBPS Program

VSE's SED Division performs work on a program to provide a protection system, the Tanker Ballistic Protection System ("TBPS"), for vehicles deployed by the U.S. Army in Iraq. Under this program, SED applies a Fuel Tank Self-Sealing System and necessary Add-on Armor Panels for Army Fuel Dispensing Tankers as protection from hostile fire. Delivery of completed vehicle protection systems began in January 2005.

SED has performed on the TBPS program under multiple firm fixed price per unit contracts. Subsequent to program implementation, VSE has received modifications to consolidate contracting activity into fewer contracts and to adjust the number of tankers based on Army tanker availability and needs, and the possibility remains that there may be future contract modifications as the Army's needs change. The total contract ceiling value on the TBPS Program contracts is approximately \$75 million, and the remaining available contract ceiling on the TBPS Program contracts is approximately \$32 million as of June 30, 2006. Contract value on the TBPS contracts is fully funded at the time of award or modification. Currently, contractual coverage for work on the TBPS program runs through May 2007 and the Company expects to complete work in 2007.

The TBPS Program contributed significantly to VSE revenues in 2005 and has

provided significant revenues in 2006. The work performed on this program also significantly increases the amount of fixed price contract work performed by the Company. In general, fixed price contract work has higher risk and profit

-14-

margins than work on other contract types. Accordingly, the TBPS program has presented, and is expected to continue to present, VSE's business with both increased profit margins and risk of loss.

CED Army Equipment Support Program

In December 2005, VSE's CED Division was awarded a task order on its Rapid Response support contract to provide maintenance and logistics services in support of U.S. Army equipment in Iraq and Afghanistan. Services provided under this program include deployed sustainment management, deployed logistics and repairs management, unique system training and curriculum support, resource management, and acquisition and administrative support. Work on this program began in 2006.

The task order for this program is time and materials, with substantially all of the services provided by CED's subcontractor. CED will provide certain program management services. The contract task order has a base year valued at approximately \$139 million and an additional one-year option period valued at approximately \$212 million. This program is expected to contribute significantly to VSE's revenues in 2006 and 2007, however, VSE's profit margins on subcontract work are generally lower than on work performed by Company personnel.

Government Procurement Policies and Practices

VSE's business is subject to the risks arising from economic conditions and political factors that may impact the budgets and program funding of customers served through VSE's contracts. VSE's revenues have historically been subject to annual fluctuations resulting from changes in the level of Defense spending. Future budgetary and funding decisions by government lawmakers or Defense restructuring efforts could affect the types and level of services provided by VSE to its government customers and could potentially have a material adverse impact on the Company's results of operations or financial condition.

The revenues of the Company depend on its ability to win new contracts and on the amount of work ordered by the government under the Company's existing contracts. The Company's ability to win new contracts is affected by government acquisition policies and procedures, including government procurement practices that in some years have tended toward bundling work efforts under large comprehensive ("omnibus") management contracts. This emphasis on large contracts presents challenges to winning new contract work, including making it more difficult for the Company to qualify as a bidder, increasing the level of competition due to the award of fewer contracts, and forcing the Company into competition with larger organizations that have greater financial resources and larger technical staffs. Competing for these contracts requires the Company to use teams of subcontractors to be able to offer the range of technical competencies needed to do the work. While the use of subcontractors on a large scale basis allows the Company to compete for this work, profit margins on subcontract work are lower than on work performed by Company personnel, thereby reducing the Company's overall profit margins.

The use of subcontractors on government contracts also raises certain performance and financial risks to VSE because government prime contractors are responsible for performing to the requirements of the contract and ensuring compliance with U.S. Government regulations relative to the performance by subcontractors.

Other government procurement practices that can affect the Company's revenues are: 1) the length of contracts issued, which may vary depending on changes in contracting regulations and other factors; 2) the use of past performance criteria that may preclude entrance into new government markets; and 3) government social programs that limit contract work to small, woman, or minority owned businesses. Additional risk factors that could potentially affect the Company's results of operations are the government's right to terminate contracts for convenience, the government's right to not exercise

-15-

all of the option periods on a contract, and funding delays caused by government political or administrative actions.

Global Economic Conditions and Political Factors

VSE's business is subject to the risks arising from global economic conditions and political factors associated with current and potential customers served through VSE's contracts with the U.S. Government. An economic slowdown in countries served under the BAV Ship Transfer Program could potentially affect sales. Failure by the government of a potential foreign customer to approve and fund acquisition of U.S. Navy ships serviced under this program could affect sales. In any one year, a significant amount of the Company's revenues may result from sales on the BAV Ship Transfer Program to a single foreign government. BAV sales to Egypt have historically comprised a large percentage of the Company's total sales in any one year. Work associated with the transfer of four ships to Taiwan under the BAV Ship Transfer Program during 2004 and 2005 comprised a large percentage of total revenues, and 2006 revenues under this program are expected to be significant to the Company.

The current international situation posed by potential terrorist activity and the continuing conflict in the Middle East could increase the political risks for revenues from the BAV Ship Transfer, TBPS, and CED Army Equipment Support Programs.

Concentration of Revenues From Continuing Operations (in thousands)

For the six months ended June 30,

Source of Revenue	2006		2005	
	Revenues	%	Revenues	%
BAV Egypt	\$ 24,792	16%	\$ 25,955	19%
BAV Taiwan	29,969	19%	31,642	23%
BAV Other	4,248	2%	1,721	1%
Total BAV	59,009	37%	59,318	43%
TBPS Program	14,200	9%	16,819	12%
CED Army Equipment Support	28,366	18%	-	-
VSE Other	56,569	36%	62,464	45%
Total Revenues	\$158,144	100%	\$138,601	100%

International tensions can also affect work by FMD on U.S. Navy ships when they are deployed outside of U.S. Navy facilities and are unavailable for maintenance work during this time period. The equipment refurbishment services offered by ELD are subject fluctuation resulting from changes in U.S. military actions internationally. Adverse results arising from these global economic and political risks could impact the Company's results of operations.

Management Outlook

The growth trend established by VSE's record high revenues and profits in 2004 and 2005 is expected to continue in 2006. The major contributors to 2006 results are expected to be: 1) a continuation of the Taiwan Ship Transfer work performed by BAV; 2) performance on the TBPS Program; 3) new work performed on the CED Army Equipment Support Program; 4) growth in ELD's Equipment Refurbishment Services provided to the U. S. Army Reserve; 5) additional work provided by Other Significant Contracts; and 6) Potential New Contract Opportunities.

Taiwan Ship Transfer. The Taiwan ship transfer effort is expected to continue through late 2006, allowing BAV to maintain revenue levels in 2006 similar to 2005. Funded backlog on the BAV Ship Transfer Program was approximately \$93 million as of June 30, 2006.

TBPS Program. SED began delivery of completed vehicle protection systems on this program in 2005, and work on the program increased during the first three quarters of 2005. Changes in production schedules can result from operating in an uncertain and volatile environment in Iraq, changing Army needs, technical specification issues, and facility location changes. Such changes caused work on this program to level off during the fourth quarter of 2005 and the first quarter of 2006. Production levels increased again beginning in the second quarter of 2006 and the program is expected to generate increased levels of revenue in 2006. Funded backlog on the TBPS program was approximately \$32 million as of June 30, 2006.

CED Army Equipment Support Program. This program is new work and is expected to increase Company revenues in 2006. During the first quarter of 2006, work on this program was transitioned from a predecessor contract to CED's contract task order, and CED's revenue from this program increased in the second quarter. Additional increases in revenue from this program are projected for the next six months, and most of the \$139 million base year task order is expected to be completed in 2006. The contract task order for this program is incrementally funded, with funded backlog of approximately \$66 million as of June 30, 2006.

Equipment Refurbishment Services. VSE has provided the U.S. Army Reserve with military vehicle and equipment refurbishment services for several years. Beginning in 2006, VSE formed ELD to continue the performance of these services. ELD revenues from these services have increased during the first six months of 2006 and ELD is expecting further increases in 2006 and future years.

Other Significant Contracts. VSE has three multiyear, multiple award, indefinite delivery, indefinite quantity contracts that have large nominal ceiling amounts with no funding committed at the time of award. VSE is one of several awardees on each contract. While future VSE revenue from these contracts cannot be predicted with certainty, the award of these contracts provides the Company with the opportunity to compete for work that may contribute to future revenue growth, including new work in 2006. These three contracts are described below.

VSE's CED Division has a multiyear Rapid Response support contract awarded by the U.S. Army Communications-Electronics Command (CECOM) in January 2003. The contract enhances the Company's revenue producing capabilities by allowing it to provide services through any of VSE's operating entities or through third party subcontractors for various end user government customers. If all options are exercised, this contract has a potential total nominal ceiling of approximately \$2.9 billion over an eight-year period. While it is not likely that the full ceiling amount will be realized, this contract has generated revenues for VSE of approximately \$37 million and \$27 million during 2005 and 2004, respectively. The CED Army Equipment Support Program is expected to add significantly to this contract's and the Company's revenues in 2006. VSE continues to pursue new orders on this contract that present potential revenue opportunities for the future.

VSE's FMD Division has a contract with the U.S. Navy, SeaPort Enhanced, awarded in April 2004, which includes a five-year base period and two five-year option periods. This contract is a procurement vehicle for the Navy to order services from a wide range of contractors to support all phases of naval ship and shipboard weapons systems acquisition and life-cycle support. While this award does not guarantee any revenues for VSE, the Company is one of several contractors eligible to bid for services during the life of the contract. As of June 30, 2006, FMD has generated only minor amounts of revenue from this contract. In May 2006, FMD was awarded a \$20.5 million, three-year order on this contract to support the Navy's Joint Program Office for Cartridge Actuated Devices and Propellant Actuated Devices. Work on this order began in June 2006 and is expected to contribute to 2006 and future years revenue growth.

FMD also has a contract, awarded in September 2004, with the U.S. Navy to provide engineering and technical services to support Naval Sea Systems Command maintenance, overhaul, repair, and alteration of systems aboard ships.

This contract has a total nominal contract ceiling amount of \$1.022 billion over a five-year period if all option periods are exercised. VSE is one of several awardees eligible to share in the potential total contract ceiling amount. Since

the date of the contract award, FMD has been awarded delivery orders with ceilings valued at approximately \$44 million on this contract, of which approximately \$37 million has been funded. Although it is not likely that the full \$1.022 billion ceiling amount will be realized, this contract presents potential future revenue opportunities.

Potential New Contract Opportunities. VSE has several significant proposals that have been submitted to the government for evaluation and award and proposals that are being prepared for submission to the government that would, if awarded to VSE, represent opportunities for additional growth. VSE is confident that it can win one or more of these opportunities.

Funded Backlog

Revenue increases in government contracting businesses are typically preceded by increases in contract funding ("Bookings") and a build-up of funded contract backlog. VSE's Bookings and funded backlog are continuing at levels that give the Company a firm basis for continued revenue growth in 2006.

(in millions)

Bookings for the six months ended June 30, 2006	\$147
Funded backlog as of June 30, 2006	\$264
Revenues for the six months ended June 30, 2006	\$158

Longer Term

The growth in VSE revenue and profits during 2004 and 2005, and the expected continuation of this growth in 2006, will present the Company with both challenges and opportunities for future years.

The biggest challenge that VSE faces in future years is the ability to sustain its recent level of growth. Certain work efforts that have supported VSE's growth in 2004, 2005 and in the six month period ended June 30, 2006, are due to expire in the future. VSE has received significant contributions to its revenue growth in 2004 from the Taiwan Ship Transfer work and in 2005 from both the Taiwan Ship Transfer work and the TBPS Program work. These two programs and the CED Army Equipment Support Program are expected to be the largest contributors to VSE revenue in 2006. The expiration of these programs at various dates in 2006 and 2007 will reduce VSE annual revenues if the expiring work is not replaced by new or follow-on work.

The Company believes it is well prepared to meet the challenge of replacing the expiring work. Opportunities associated with VSE's recent growth include a more competitive price structure with which to bid on future work, a wider range of employee skill sets, and a broader name recognition and past performance record for use in expanding the Company's customer base. In addition to proposals that the Company currently has under evaluation and in preparation, VSE is currently tracking multiple bidding opportunities for new contract work. Additionally, the larger revenue level and capital base improves the Company's ability to pursue larger programs and potential acquisition opportunities.

Recent Accounting Pronouncements

Share-Based Payment

In December 2004, the Financial Accounting Standards Board issued SFAS 123(R), "Share-Based Payment," which is a revision to SFAS 123. SFAS 123(R) supersedes APB Opinion No. 25 and amends SFAS 95, "Statement of Cash Flows." Generally, the approach in SFAS 123(R) is similar to the approach described in SFAS 123. However, SFAS 123(R) requires all share-based payments to employees, including grants of employee stock options, to be recognized in the income statement

-18-

based on their fair values. The Company adopted SFAS 123(R), using the modified prospective method, on January 1, 2006.

The impact of adopting SFAS 123(R) is expected to decrease income before income taxes by approximately \$252 thousand in 2006. The amount of stock-based compensation expense for the six months ended June 30, 2006 was \$126 thousand.

SFAS 123(R) also requires the benefits of tax deductions in excess of recognized compensation cost to be reported as a financing cash flow, rather than as an operating cash flow as required under the old method. The amount of financing cash flows from benefits of tax deductions in excess of recognized compensation cost for the six months ended June 30, 2006 was \$92 thousand. The amount of operating cash flows from benefits of tax deductions in excess of recognized compensation cost for the six months ended June 30, 2005 was \$662 thousand.

On December 30, 2005, VSE's board of directors (the "Board") directed VSE to discontinue awarding options, both discretionary and nondiscretionary, to purchase VSE Stock under VSE's 2004 Stock Option Plan (the "2004 Plan"). The options outstanding under the 2004 Plan as of December 30, 2005, and the options to purchase VSE Stock under VSE's 1998 Stock Option Plan (the "1998 Plan") are not affected by this Board action. The primary reason for the Board's suspension of option awards under the 2004 Plan was the potential impact on VSE's results of operations from the application of SFAS 123 (R) to share-based payments to employees, including stock option awards.

Accounting for Uncertainty in Income Taxes

On July 13, 2006, the Financial Accounting Standards Board issued Interpretation No. (FIN) 48, "Accounting for Uncertainty in Income Taxes," which is effective January 1, 2007. The purpose of FIN 48 is to clarify and set forth consistent rules for accounting for uncertain tax positions in accordance with SFAS 109, "Accounting for Income Taxes." The cumulative effect of applying the provisions of this interpretation are required to be reported separately as an adjustment to the opening balance of retained earnings in the year of adoption. The Company is in the process of reviewing and evaluating FIN 48, and therefore the ultimate impact of its adoption is not yet known.

Critical Accounting Policies

VSE's consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States, which require VSE to make estimates and assumptions. The Company believes the following critical accounting policies affect our more significant judgments, estimates and assumptions used in the preparation of its consolidated financial statements.

Revenue Recognition

Substantially all of the Company's services are performed for its customers on a contract basis. The three primary types of contracts used are cost-type contracts, time and materials contracts, and fixed-price contracts. Revenues result from work performed on these contracts by the Company's employees and from pass-through of costs for material and work performed by subcontractors.

Revenues on cost-type contracts are recorded as contract allowable costs are incurred and fees earned. Profits on cost-type contracts are equal to the fees that are earned. The BAV contract terms specify award fee payments that are determined by performance and level of contract activity. Award fees are made three times during the year and a contract modification authorizing the award fee payment is issued subsequent to the period in which the work is performed. The Company does not recognize award fee income until the fees are fixed and determinable, generally upon contract notification confirming the award fee. Due to such timing, and to fluctuations in the level of revenues, profits as a percentage of revenues on this contract will fluctuate from period to period.

-19-

Revenues for time and materials contracts are recorded on the basis of contract allowable labor hours worked times the contract defined billing rates, plus the cost of materials used in performance on the contract. Profits on time and material contracts result from the difference between the cost of services performed and the contract defined billing rates for these services.

Revenue recognition methods on fixed-price contracts will vary depending on the nature of the work and the contract terms. On certain fixed-price contracts revenues are recorded as costs are incurred, using the percentage-of-completion method of accounting, because these contracts require design, engineering, and manufacturing performed to the customer's specifications. Revenues on fixed-price service contracts are recorded as work is performed. Revenues on fixed-

price contracts that require delivery of specific items may be recorded based on a price per unit as units are delivered.

Certain direct and incremental contract costs have been deferred and reported as a current asset prior to the recognition of revenue. These costs are realizable over the life of the contract. The amount of costs classified as a current asset as of June 30, 2006 is approximately \$803 thousand.

Revenues by contract type for the six months ended June 30, 2006 and 2005 were as follows (in thousands):

Contract Type	2006		2005	
	Revenues	%	Revenues	%
Cost-type	\$ 81,058	51	\$ 85,420	62
Time and materials.	57,182	36	29,644	21
Fixed-price	19,904	13	23,537	17
	\$158,144	100	\$138,601	100

The Company will occasionally perform work at risk, which is work that is performed prior to the government formalizing funding for such work. Revenue related to work performed at risk is not recognized until it can be reliably estimated and its realization is probable. VSE recognizes this "risk funding" as revenue when the associated costs are incurred or the work is performed. VSE is at risk of loss for any risk funding not received. The Company provides for anticipated losses on contracts by a charge to income during the period in which losses are first identified. As of June 30, 2006, VSE has recognized approximately \$109 thousand in risk funding. VSE believes that it will receive funding for all or substantially all of this risk funding revenue.

Long-Lived Assets

In assessing the recoverability of long-lived assets, including goodwill and other intangibles, VSE must make assumptions regarding estimated future cash flows and other factors to determine the fair value of the respective assets. If these estimates or their related assumptions change in the future, VSE may be required to record impairment charges for these assets not previously recorded.

Goodwill

Goodwill and intangible assets with indefinite lives are subject to a review for impairment at least annually. The Company performs its annual impairment test on September 30. As of June 30, 2006, the Company had approximately \$1.1 million of goodwill associated with its acquisition of Energetics in 1995. The Company has not recognized any reduction to the goodwill due to the impairment rules. If at some time in the future it is determined that impairment has occurred, such impairment could potentially have a adverse impact on the Company's results of operations or financial condition.

Contingencies

From time to time VSE is subject to proceedings, lawsuits, and other claims related to environmental, labor, and other matters. VSE is required to assess the likelihood of any adverse judgments or outcomes to these contingencies as

well as potential ranges of probable losses and establish reserves accordingly. The amount of reserves required may change in future periods due to new developments in each matter or changes in approach to a matter such as a change in settlement strategy.

Income Taxes

The carrying value of VSE net deferred tax assets is based on assumptions regarding VSE's ability to generate sufficient future taxable income to utilize these deferred tax assets. If the estimates and related assumptions regarding VSE's future taxable income change, VSE may be required to record valuation allowances against its deferred tax assets, resulting in additional income tax

expense.

Results of Operations

The following table sets forth certain items, including consolidated revenues, pretax income and net income from continuing operations, and the changes in these items for the six month periods ended June 30, 2006 and 2005 (in thousands):

	2006 Increase Compared to 2005					
	Three Months Ended June 30,		Six Months Ended June 30,		Three Months	Six Months
	2006	2005	2006	2005		
Revenues	\$94,844	\$72,682	\$158,144	\$138,601	\$22,162	\$19,543
Income before income taxes	\$ 3,278	\$ 2,877	\$ 5,680	\$ 5,004	\$ 401	\$ 676
Provision for income taxes	1,251	1,112	2,168	1,935	139	233
Income from continuing operations	\$ 2,027	\$ 1,765	\$ 3,512	\$ 3,069	\$ 262	\$ 443

Revenues increased by approximately 30% and 14% for the three and six month periods ended June 30, 2006, as compared to the same periods of 2005. A substantial portion of the increases in revenues was attributable to revenues associated with the CED Army Equipment Support Program work, which started in January 2006. Increased revenues from ELD equipment refurbishment services and Energetics services also contributed to the Company's increases in revenues. The increases in revenues were partially offset by decreased revenues associated with a decrease in work performed under the TBPS Program, a decrease in the level of work on FMD's Navy contracts, and a decrease in the level of work on VCG's contract with the U.S. Coast Guard.

Income before income taxes increased by approximately 14% for both the three month and six month periods ended June 30, 2006, as compared to the same periods of 2005. The increases were primarily due to increases in profits on the BAV Ship Transfer Program, on the FMD contract work, and from Energetics. Also, the ability to spread corporate fixed costs over the larger revenue base contributed to an increase in profits.

Financial Condition

VSE's financial condition did not change materially during the six months ended June 30, 2006. The Company's largest assets are its accounts receivable and the largest liabilities are its accounts payable and accrued expenses. Accounts receivable increased approximately \$10.8 million, and accounts payable increased approximately \$7.9 million during the first six months of 2006. These increases and changes to other asset and liability accounts were due primarily to the increase in the level of business activity, contract delivery schedules, and

-21-

the timing of associated billings to customers and subcontractor payments required to perform this work.

The change in total stockholders' equity in this period resulted from earnings and dividend activity and from the exercise of stock options. In June 2006, VSE's Board of Directors authorized the Company to repurchase up to 50,000 shares of VSE Stock from time to time on the open market, subject to corporate objectives. As of June 30, 2006, the Company had not purchased any of these shares.

Liquidity and Capital Resources

Cash Flows

Cash and cash equivalents decreased by approximately \$7.6 million during the six months ended June 30, 2006. The decrease in cash and cash equivalents during this period resulted from cash used in operating activities of approximately \$5.9 million, cash used in investing activities of approximately \$1.7 million, and cash used in financing activities of approximately \$73 thousand. Investing activities consisted of expansion and improvement of facilities of approximately \$191 thousand and purchases of property and equipment, net of dispositions, of approximately \$1.5 million. Financing activities consisted of dividend payments and proceeds received from the issuance of VSE Stock under stock incentive plans.

Cash and cash equivalents increased by approximately \$5.1 million during the six months ended June 30, 2005. The increase in cash and cash equivalents during this period resulted from cash provided by operating activities of approximately \$7.1 million, cash used in financing activities of approximately \$1.3 million, and cash used in investing activities of approximately \$800 thousand. Financing activities consisted of repayment of amounts previously borrowed on the Company's bank loan of approximately \$1.6 million, dividend payments, and proceeds received from the issuance of VSE Stock upon the exercise of stock options. Investing activities consisted of expansion and improvement of facilities of approximately \$179 thousand and purchases of property and equipment, net of dispositions, of approximately \$626 thousand.

The difference between cash used in operating activities of approximately \$5.9 million in 2006 as compared to cash provided by operating activities of approximately \$7.1 million in 2005 is primarily due to an increase in the level of contract inventories on the TBPS program and to a decrease in the level of accrued expenses in 2006 as compared to 2005.

Quarterly cash dividends were paid at the rate of \$.12 per share during the six months ended June 30, 2006. Cash dividends of \$.07 per share were declared in June 2006 to be paid in August 2006. Pursuant to its bank loan agreement, the payment of cash dividends by VSE is subject to annual rate restrictions. VSE has paid cash dividends each year since 1973.

Liquidity

The Company's internal sources of liquidity result primarily from operating activities, specifically from changes in the level of revenues and associated accounts receivable, inventories, and accounts payable from period to period, and from profitability. Significant increases or decreases in revenue and accounts receivable, inventories, and accounts payable can cause significant increases or decreases in internal liquidity.

Accounts receivable arise primarily from billings made by the Company to the government or other government prime contractors for services rendered, and payments received on accounts receivable represent the principal source of cash for the Company. Accounts receivable levels can be affected significantly by the timing of large materials purchases and subcontractor efforts used in performance on the Company's contracts. Accounts receivable levels are also affected by contract retainages, differences between the provisional billing rates authorized by the government compared to the costs actually incurred by

-22-

the Company, differences between billable amounts authorized by contract terms compared to costs actually incurred by the Company, and government delays in processing administrative paperwork for contract funding.

Work on the TBPS program requires the Company to acquire inventories consisting of materials, supplies, and other expenditures for which end units have not yet been completed and accepted. Although these costs are classified as inventories for accounting purposes, they are similar in nature to materials and direct supplies purchased for use in performance on the Company's other contracts in that they are solely and directly attributable to the contract and will be billed to the customer within a relatively short time. All of the inventories are expected to be liquidated, billed, and collected as vehicle protection systems are completed and accepted by the government customer. These materials

and direct supplies will not be restocked to maintain any permanent inventory levels.

Accounts payable arise primarily from purchases of subcontractor services and materials used by the Company in the performance of its contract work. Payments made on accounts payable, along with payments made to satisfy employee payroll and payroll associated expenses, make up the principal cash requirements of the Company. Accounts payable levels can be affected by changes in the level of contract work performed by the Company and by the timing of large materials purchases and subcontractor efforts used in performance on the Company's contracts.

Other cash requirements include income tax payments, the acquisition of capital assets for shop, office and computer support, and the payment of cash dividends. From time to time, the Company also invests in the expansion, improvement, and maintenance of its operational and administrative facilities.

VSE's external sources of liquidity consist of a revolving bank loan agreement that provides loan financing based on the Company's accounts receivable (see "Notes to Consolidated Financial Statements"). The bank financing complements the Company's internal sources of liquidity by providing increasing levels of borrowing capacity as accounts receivable levels increase. The bank loan agreement provided loan financing up to a maximum commitment of \$15 million as of June 30, 2006. The Company has determined that the current \$15 million commitment amount is adequate to cover known current and future liquidity requirements.

Performance of work under the Company's larger contracts that require significant amounts of subcontractor or material purchases have the potential to cause substantial requirements for working capital; however, management believes that cash flows from operations and the bank loan commitment are adequate to meet current operating cash requirements.

Contractual Obligations

In January 2006, the Company signed a five-year facility lease for shop, office and warehouse space in Long Beach, Mississippi to begin in April 2006 for an aggregate amount of \$668 thousand. In April 2006, the Company signed an addendum to this lease to increase the amount of space leased and to defer the start date to May 2006. The revised aggregate amount of the lease is \$1.116 million.

In May 2006, the Company signed a three-year facility lease for shop and office space in Ladysmith, Virginia to begin in June 2006 for an aggregate amount of \$360 thousand. The Company simultaneously entered into a Real Estate Purchase Agreement for this property that gives the Company a 180 day option to buy the leased property for an amount of approximately \$1.5 million.

See "Management's Discussion and Analysis of Financial Condition and Results of Operations" contained in VSE's Annual Report on Form 10-K for the fiscal year ended December 31, 2005 for a summary of the Company's other contractual obligations.

-23-

Asset Purchase Agreement

In July 2006, VSE pursuant to an agreement with Giordano Automation Corp. ("Giordano") purchased certain assets of Giordano, including proprietary software, intellectual property rights, training materials, certain fixed assets, licenses, and warranties. The purchase price was \$575 thousand. The acquisition of these assets will allow the Company to pursue certain business opportunities.

Inflation and Pricing

Most of the contracts performed by VSE provide for estimates of future labor costs to be escalated for any option periods provided by the contracts, while the non-labor costs included in such contracts are normally considered reimbursable at cost. VSE property and equipment consists principally of computer systems equipment, furniture and fixtures, and land and improvements.

The overall impact of inflation on replacement costs of such property and equipment is not expected to be material to VSE's future results of operations or financial condition.

Disclosures About Market Risk

Interest Rates

VSE's bank loan financing provides available borrowing to the Company at variable interest rates. The Company has not borrowed significant amounts on the loan in recent years. Accordingly, the Company does not believe that any movement in interest rates would have a material impact on future earnings or cash flows. If VSE were to significantly increase borrowings on the current loan arrangement, future interest rate changes could potentially have a material impact.

Foreign Currency

While a significant amount of the Company's business results from the services provided by BAV related to the transfer of ships to foreign governments, the BAV contract payments are made by the U.S. Government in U.S. dollars. Additionally, most funding requirements to support work performed or services purchased in foreign countries are made in U.S. dollars, and the disbursements that are made in foreign currencies are reimbursable to BAV in post conversion dollars.

Foreign currency transactions of other VSE divisions or subsidiaries are minimal. Accordingly, the Company does not believe that it is exposed to any material foreign currency risk.

VSE CORPORATION AND SUBSIDIARIES

Item 3. Quantitative and Qualitative Disclosures About Market Risks

See "Disclosures About Market Risk" in Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Item 4. Controls and Procedures

As of the end of the period covered by this report, based on management's evaluation, with the participation of VSE Corporation's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d - 15(e) under the Securities Exchange Act of 1934, as amended) our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are effective in ensuring that information required to be disclosed by us in reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and regulations.

There was no change in our internal control over financial reporting during our second quarter of fiscal 2006 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. Other Information

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The Registrant did not purchase any of its equity securities during the period covered by this report.

Under the Registrant's bank loan agreement dividends may be paid in an annual aggregate amount of \$.60 per share, provided there is no default under the loan agreement.

Item 4. Submission of Matters to a Vote of Security Holders

The 2006 annual meeting of the Company's stockholders was held on May 2, 2006, for the following purposes:

1. To elect seven directors to serve until the next annual meeting of stockholders and until their successors are duly elected and qualified;
2. To approve an amendment to VSE's Restated Certificate of Incorporation to increase the authorized number of shares of VSE Common Stock, par value \$.05 per share, from 5,000,000 shares to 15,000,000 shares;
3. To approve the adoption of the VSE Corporation 2006 Restricted Stock Plan; and
4. To ratify the appointment of Ernst & Young LLP as VSE's independent certified public accountants for the fiscal year ending December 31, 2006.

All of the Company's seven nominees were elected as directors, the amendment to VSE's Restated Certificate of Incorporation was approved, the adoption of the VSE Corporation 2006 Restricted Stock Plan was approved, and the appointment of Ernst & Young LLP as VSE's independent certified public accountants for the year ending December 31, 2006, was ratified. Voting results were as follows:

CERTIFICATE OF AMENDMENT
OF THE RESTATED
CERTIFICATE OF INCORPORATION
OF
VSE CORPORATION

VSE Corporation, a corporation organized and existing under and by virtue of the General Corporation Law of the State of Delaware (the "Corporation"), does hereby certify that:

FIRST: The Certificate of Incorporation is duly amended by deleting therefrom the current Article FOURTH, in its entirety, and inserting in substitution thereof a new Article FOURTH, as follows:

FOURTH: The total number of shares of capital stock that the Corporation shall have authority to issue is Fifteen Million (15,000,000) shares of common stock having a par value of \$0.05 per share.

SECOND: The directors of the Corporation adopted resolutions which set forth the foregoing amendment, declared that this amendment is advisable and directed that this amendment be submitted for action by the Corporation's stockholders.

THIRD: The foregoing amendment has been duly adopted in accordance with Section 242 of the General Corporation Law of the State of Delaware.

IN WITNESS WHEREOF, VSE Corporation has caused this Certificate of Amendment to be executed by its duly authorized President, Chief Executive Officer and Secretary in accordance with Section 103(a)(2) of the General Corporation Law of the State of Delaware.

DATED: May 2, 2006

VSE CORPORATION

AMENDED AND RESTATED
CERTIFICATE OF INCORPORATION
OF
VSE CORPORATION

(Includes revised Article FOURTH as amended May 2, 2006)

VSE Corporation (the "Corporation"), originally incorporated under the name Value Engineering Company, whose original Certificate of Incorporation was filed with the Secretary of State of Delaware on January 22, 1959, hereby restates its Certificate of Incorporation in its entirety and certifies that at a meeting of the Corporation's board of directors this Restated Certificate of Incorporation was declared advisable and duly adopted by the Corporation's directors in accordance with the provisions of Section 245 of the General Corporation Law of the State of Delaware. This Restated Certificate of Incorporation only restates and integrates and does not further amend the Corporation's Certificate of Incorporation as heretofore amended or supplemented and there is no discrepancy between those provisions as so amended or supplemented and the provisions of this Restated Certificate of Incorporation.

FIRST. The name of the corporation is VSE CORPORATION.

SECOND. The registered office of the corporation within the State of Delaware is Three Christina Centre, 201 N. Walnut Street, City of Wilmington 19801, County of New Castle. The registered agent of the Corporation within the State of Delaware is The Company Corporation, Three Christina Centre, 201 N. Walnut Street, City of Wilmington 19801, County of New Castle, the business office of which is identical with the registered office of the Corporation.

THIRD. The nature of the business, or objects or purposes to be transacted, promoted or carried on are:

To carry on the business of research, experimentation, invention, discovery, testing, development, and utilization of processes and methods, or improvements thereto, in all the arts and sciences; including the conception, development, execution and completion of special scientific and development projects, on its own behalf and on behalf of any other person, firm, association, corporation, public or private, or the Government of the United States of America, or any foreign government, or any political subdivision thereof, or any governmental agency, and in this connection to operate testing stations as may be necessary or advisable.

To construct, buy, sell, lease, license, maintain and operate laboratories and laboratory facilities of all kinds; to carry on and make tests, experiments, analyses and to do research work and to perform analytical, experimental and research services of all kinds whether of a scientific nature or otherwise, and to do any and all acts and transact any and all business which shall or may be or become incidental to or arise out of or be connected with such business, or any part thereof.

To engage in and carry on the business of consultants; to construct, supervise the construction of, install, maintain, own, operate, lease, repair, service, and generally deal in and deal with electronic, electrical, electro-mechanical and mechanical apparatus,

devices, systems, processes, machinery, supplies and any other articles or materials used or capable of being used in connection with any of the foregoing.

To acquire by purchase, assignment, grant, license or otherwise, to apply for, secure, lease or in any manner obtain, to develop, hold, own, use, exploit, operate, enjoy and introduce, to sell, assign, lease, mortgage, pledge, grant licenses and rights of all kinds in respect of, or otherwise dispose of, and generally to deal in and with and turn to account for any or all purposes, either for itself or as nominee or agent for others:

(1) Any and all inventions, devices, processes, discoveries and formulae, and improvements and modifications thereof and rights and interests therein;

(2) Any and all letters patent or applications for letters patent of the United States of America or of any other country, state, locality or authority, and any and all rights, interests and privileges connected therewith or incidental or appertaining thereto.

To manufacture, purchase, sell and generally trade and deal in and with any article, product or commodity produced as the result of or through the use of any such inventions, devices, processes, discoveries, formulae and improvements and modifications thereof, or the like, or any articles, products, commodities, supplies and materials used or suitable to be used in connection therewith or in any manner applicable or incidental thereto; to grant licenses, sub-licenses, rights, interests and privileges in respect of any of the foregoing, and to supervise or otherwise exercise such control over its licensees or grantees and the business conducted by them, as may be agreed upon in its contracts or agreements with such licensees or grantees for the protection of its

rights and interest therein, and to secure to it the payment of agreed royalties or other considerations.

To manufacture, purchase or otherwise acquire, invest in, own, mortgage, pledge, sell, assign and transfer or otherwise dispose of, trade, deal in and deal with goods, wares and merchandise and personal property of every class and description.

To acquire, and pay for in cash, stock or bonds of this corporation or otherwise, the good will, rights, assets and property, and to undertake or assume the whole or any part of the obligations or liabilities of any person, firm, association or corporation.

To acquire by purchase, subscription or otherwise, and to receive, hold, own, guarantee, sell, assign, exchange, transfer, mortgage, pledge or otherwise dispose of or deal in and with any of the shares of the capital stock, or any voting trust certificates in respect of the shares of capital stock, scrip, warrants, rights, bonds, debentures, notes, trust, receipts, and other securities, obligations, choses in action and evidences of indebtedness or interest issued or created by any corporations, joint stock companies, syndicates, associations, firms, trusts or persons, public or private, or by the Government of the United States of America, or by any foreign government, or by any state, territory, province, municipality or other political subdivision or by any governmental agency, and as owner thereof to possess and exercise all the rights, powers and privileges of ownership, including the right to execute consents and vote thereon, and to do any and all acts and things necessary or advisable for the preservation, protection, improvement and enhancement in value thereof.

To enter into, make and perform contracts of every kind and description with any person, firm, association, corporation, municipality, county, state, body politic or government or colony or dependency thereof.

To borrow or raise monies for any of the purposes of the corporation and, from time to time without limit as to amount, to draw, make, accept, endorse, execute and issue promissory notes, drafts, bills of exchange, warrants, bonds, debentures and other negotiable or non-negotiable instruments and evidences of indebtedness, and to secure the payment of any thereof and of the interest thereon by mortgage upon or pledge, conveyance or assignment in trust of the whole or any part of the property of the corporation, whether at the time owned or thereafter acquired, and to sell, pledge or otherwise dispose of such bonds or other obligations of the corporation for its corporate purposes.

To loan to any person, firm or corporation any of its surplus funds, either with or without security.

To purchase, hold, sell and transfer the shares of its own capital stock; provided it shall not use its funds or property for the purchase of its own shares of capital stock when such use would cause any impairment of its capital except as otherwise permitted by law, and provided further that shares of its own capital stock belonging to it shall not be voted upon directly or indirectly.

To have one or more offices, to carry on all or any of its operations and business and without restriction or limit as to amount to purchase or otherwise acquire, hold, own, mortgage, sell, convey or otherwise dispose of, real and personal property of every class and description in any of the states, districts, territories or colonies of the United States, and in any and all foreign countries, subject to the laws of such state, district, territory, colony or country.

In general to carry on any other business in connection with the foregoing, and to have and exercise all the powers conferred by the laws of Delaware upon corporations formed under the General Corporation Law of the State of Delaware, and to do any or all of the things hereinbefore set forth to the same extent as natural persons might or could do.

The objects and purposes specified in the foregoing clauses shall, except where otherwise expressed, be in nowise limited or restricted by reference to, or inference from, the terms of any other clause in this certificate of incorporation, but the objects and purposes specified in each of the foregoing clauses of this article shall be regarded as independent objects and purposes.

FOURTH: The total number of shares of capital stock that the Corporation shall have authority to issue is Fifteen Million (15,000,000) shares of common stock having a par value of \$0.05 per share.

FIFTH. The minimum amount of capital with which the corporation will commence its business is One Thousand Dollars (\$1,000.00).

SIXTH. The corporation is to have perpetual existence.

SEVENTH. The private property of the stockholders shall not be subject to the payment of corporate debts to any extent whatever.

EIGHTH. In furtherance and not in limitation of the powers conferred by statute, the board of directors is expressly authorized:

To make, alter, or repeal the bylaws of the corporation.

To authorize and cause to be executed mortgages and liens upon the real and personal property of the corporation.

To set apart out of any of the funds of the corporation available for dividends a reserve or reserves for any proper purpose and to abolish any such reserve in the manner in which it was created.

By resolution passed by a majority of the whole board, to designate one or more committees, each committee to consist of two or more of the directors of the corporation, which, to the extent provided in the resolution or in the by-laws of the corporation, shall have and may exercise the powers of the board of directors in the management of the business and affairs of the corporation, and may authorize the seal of the corporation to be affixed to all papers which may require it. Such committee or committees shall have such name or names as may be stated in the by-laws of the corporation or as may be determined from time to time by resolution adopted by the board of directors.

When and as authorized by the affirmative vote of the holders of a majority of the stock issued and outstanding having voting power given at a stockholders' meeting duly called for that purpose, or when authorized by the written consent of the holders of a majority of the voting stock issued and outstanding, to sell, lease or exchange all or substantially all of the property and assets of the corporation, including its good will and its corporate franchises, upon such terms and conditions and for such consideration, which may be in whole or in part shares of stock in, and/or other securities of, any other corporation or corporations, as its board of directors shall deem expedient and for the best interests of the corporation.

NINTH. Meetings of stockholders may be held outside the State of Delaware, if the by-laws so provide. The books of the corporation may be kept (subject to any provision contained in the statutes) outside the State of Delaware at such place or places as may be designated from time to time by the board of directors or in the by-laws of the corporation. Elections of directors need not be by ballot unless the by-laws of the corporation shall so provide.

TENTH. The corporation reserves the right to amend, alter, change or repeal any provision contained in this certificate of incorporation, in the manner now or hereafter prescribed by statute, and all rights conferred upon stockholders herein are granted subject to this reservation.

ELEVENTH. No Director shall be personally liable to the corporation or any stockholder for monetary damages for a breach of

fiduciary duty as a director, except for any matter in respect of which such director shall be liable under Section 174 of Title 8 of the

Delaware Code (relating to the Delaware General Corporation Law) or any amendment thereto or successor provision thereto or shall be liable by reason that, in addition to any and all other requirements for such liability, he (i) shall have breached his duty of loyalty to the corporation or its stockholders, (ii) shall not have acted in good faith, or, in failing to act, shall not have acted in good faith, (iii) shall have acted in a manner involving intentional misconduct or a knowing violation of law or, in failing to act, shall have acted in a manner involving intentional misconduct or a knowing violation of law or (iv) shall have derived an improper personal benefit. Neither the amendment nor repeal of this Article Eleventh, nor the adoption of any provision of the certificate of incorporation inconsistent with this Article Eleventh, shall eliminate or reduce the effect of this Article Eleventh in respect of any matter occurring, or any cause of action, suit or claim that, but for this Article Eleventh would accrue or arise, prior to such amendment, repeal or adoption of an inconsistent provision.

IN WITNESS WHEREOF, VSE Corporation has caused this certificate to be signed and executed in its name by D.M. Ervine, its chairman of the board of directors and chief executive officer, attested by C.S. Weber, its secretary, this 20th day of February, 1996.

SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, D. M. Ervine, Chairman, President, Chief Executive Officer and Chief Operating Officer of the Company, certify that:

1. I have reviewed this quarterly report on Form 10-Q of VSE Corporation (the "Registrant");
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this quarterly report;
4. The Registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the Registrant and we have:
 - (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - (b) evaluated the effectiveness of the Registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this quarterly report based on such evaluation; and
 - (c) disclosed in this quarterly report any change in the Registrant's internal control over financial reporting that occurred during the Registrant's most recent fiscal quarter (the Registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting; and
5. The Registrant's other certifying officers and I have disclosed, based on our most recent evaluation, to the Registrant's auditors and the audit committee of Registrant's Board of Directors (or persons performing the equivalent function):
 - (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Registrant's ability to record, process, summarize and report financial information; and
 - (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal control over financial reporting.
